

# FLAXSEED VISUAL REFERENCE IMAGES

## F-1.0 DAMAGED FLAXSEED (BEE'S WINGS)

Portion for Analysis: Not less than 20 grams

Very thin, whitish, paperlike seeds of flaxseed known as “Fly’s Wings” or “Bee’s Wings”. These must be empty hulls.

## F-2.0 DAMAGED BY HEAT

Portion for Analysis: Not less than 20 grams

Kernels and pieces of kernels of flaxseed which are damaged as a result of heat but which are not materially discolored.

## F-3.0 HEAT DAMAGE

**Portion for Analysis:** Not less than 20 grams

Heat damaged flaxseed shall be flaxseed and pieces of flaxseed which are materially discolored and damaged by heat.

**NOTE:** It is necessary in most cases to make a cross-section analysis to determine the extent of damage.
